

CANADA SENSORS TECHNOLOGY INC.

COMMERCIAL & INDUSTRIAL ENGRAVING AND MARKING

TAGS

We have the latest innovative technology in industrial high-speed fiber laser marking at our facility making production of tags not only economical, but with repeatable quality and precision.

With a choice of metals and coatings for harsh environments, we can offer you the highest quality identification products found today. Widely used throughout a range of industries our tags are manufactured to last.

Our tags are suitable for every possible application:

- Valve Tags
- Key Tags
- ID Tags
- Instrumentation Tags
- Tool Tags
- Number Tags
- And more

All of our tags offer options for material, size and pre-drilled holes to meet your specifications.
